

E+ Sport 2014

Before you begin completing this eForm:

- Test your connection to the Agency's online submission service. Click on the 'Test your connection' button in the footer of the eForm. This is not to submit your form but merely to test that your software settings and internet connection allow an application to be submitted. If having clicked on this button, you do not receive a confirmation that your connection was successful, please consult the 'Known Issues' section of the eForm homepage. Here you can find, amongst other things, advice on internet settings and Adobe (Reader or Acrobat) security settings, either of which can prevent a successful connection to the Agency's online submission service. Please note that, if after performing a successful test, you move your eForm to a different computer or upgrade your version of Adobe Reader, you will need to perform the test again. This is because the original test result will no longer be valid. For a fuller description of how the 'Test your connection' function works please consult the eForm User Guide.

- Check that you have the latest available version of the eForm. In the event of a significant eForm problem arising, the Agency may decide to make available an updated i.e. corrected version of the eForm. The latest version number of each eForm is displayed on the eForm homepage whilst specific details of any problem and its impact would be published on the funding opportunity webpage of the programme concerned.

These resources and other useful links can be found in a table located at the end of this eForm.

Part B. Description of the project

B.1 Summary of the project (max 2000 characters).

Please indicate the language of the summary * :

English

Please provide your summary * :

E-O.N.E. is based on the build a new European Network of stakeholders operating in the field of “non-organised” activities and “Outdoor” sports.. Primary objective of the network is to demonstrate and promote the fundamental role plaid by such activities within the search for a better quality of life. Health, sport and wellness reciprocally integrate through the practice of “non-organised” activities increasing the chances for a personal, social, economic and cultural growth.

A Network implies dialogue and exchange of innovative ideas, experiences and good practices. The start-up of Net involve 9 organizations from 8 programme countries with different experiences and competences. Each participant has a specific function: management, research, information, promotion, innovation, creation of programmatic and executive policies, implementation of actions at European level, oriented to young people and to a perspective Sport for All. Each participant will pursue the involvement of the target groups and of other entities which might be included in the Net. The project will have a duration of 18 months.

An integrated and multi-functional methodology characterize the project. The concept of networking, also trought the use of the most recent communication technologies, is fundamental to create conditions of efficiency, effectiveness, easy accessibility directly and undirectly involving other interested subjects.

The results of the project are: a better awareness and knowledge about the concerned themes, a relevant expansion of the Net and a significant growth of the practice of “non-organised” activities.

In the long run, thanks to an integrated Dissemination Plan at European level, it will be possible to create new programmatic and implemental policies for the promotion and development of “non-organised” activities and “outdoor” sports at various territorial levels, increasing the level of Quality of Life of the European communities, organizations and citizens.

B.2 Topics addressed

Topics * :

EU physical activity guidelines
